Subject Index

Academic Psychiatrists

A day in the life of an academic psychiatrist. Bailey B, Chan CH, Pato MT, Schuckit MA, Atre Vaidya N. September-October 375–381

Early career professional development issues for military academic psychiatrists. Warner C. November-December 437–442

Internationalism and the future of academic psychiatry (commentary). Belkin GS, Fricchione GL. July-August 240–243

Introduction: the extraordinary in an ordinary day. Roberts LW. September-October 374

Professionalism and the ethics-related roles of academic psychiatrists (editorial). Roberts LW, Coverdale J, Louie A. November-December 413–415

Where are the women academic speakers at psychiatry grand rounds? (letter). Jain S. July-August 322

Academic Psychiatry

Academic Psychiatry: coming of age (editorial). Roberts LW, Coverdale J, Louie A, Beresin EV. July-August 237-239

Addiction Psychiatry

How prepared are psychiatry residents for treating nicotine dependence? Prochaska JJ, Fromont SC, Hall SM. July-August 256–261

A survey of addiction training in child and adolescent psychiatry residency programs. Waldbaum M, Galanter M, Dermatis H, Greenberg WM. July-August 274–278

Admissions Interviews

Do data obtained from admissions interviews and resident evaluations predict later personal and practice problems? Dubovsky S. November-December 443–448

Aggression

A pilot survey of patient-initiated assaults on medical students during clinical clerkship. Waddell AE, Katz MR, Lofchy J, Bradley J. September-October 350–353

Protecting the safety of medical students and residents (editorial). Coverdale JH, Louie AK, Roberts LW. September-October 329–331

American Board of Psychiatry and Neurology

Assessment of psychopharmacology on the American

Board of Psychiatry and Neurology examinations (perspective). Juul D, Winstead DK, Sheiber SC. May-June 211–214

Assessment

Adequacy of antidepressant treatment by psychiatric residents: the Antidepressant Treatment History Form as a possible assessment tool. Dew RE, Kramer SI, McCall WV. July-August 283–288

Assessment of psychopharmacology on the American Board of Psychiatry and Neurology examinations (perspective). Juul D, Winstead DK, Sheiber SC. May-June 211–214

Do data obtained from admissions interviews and resident evaluations predict later personal and practice problems? Dubovsky S. November-December 443–447

Formative feedback in teaching undergraduate psychiatry. Chur-Hansen A, Koopowitz LF. Spring 66–68

The OSCE has landed: one small step for British psychiatry? Sauer J, Hodges B, Santhouse A, Blackwood N. July-August 310–315

Peer review for residents. Patel M. November-December 490–494

The relationship between psychiatry residency applicant evaluations and subsequent residency performance. Dawkins K, Ekstrom RD, Maltbie A, Golden RN. Spring 69–75

Residents' perception of effectiveness of twelve evaluation methods for measuring competency. Cogbill KK, O'Sullivan PS, Clardy J. Spring 76–81

The "shrinking" clerkship: characteristics and length of clerkships in psychiatry undergraduate education. Rosenthal RH, Levine RE, Carlson DL, Clegg KA, Crosby RD. Spring 47–51

Usage of the National Board of Medical Examiners Subject Test in psychiatry by U.S. and Canadian clerkships. Levine RE, Carlson DL, Rosenthal RH, Clegg KA, Crosby RD. Spring 52–57

Attitudes

Attitudes and behaviors of psychiatry residents toward pharmaceutical representatives before and after an educational intervention. Randall ML, Rosenbaum JR, Rohrbaugh RM, Rosenheck RA. Spring 33–39

Attitudes and views on psychiatry: a comparison between Spanish and U.S. medical students. Pailhez G, Bulbena A, Coll J, Ros S, Balon R. Spring 82–91

The attitudes of Israeli medical students toward residency in psychiatry. Abramowitz MZ, Bentov-Gofrit D. Spring 92–95

Medical students' attitudes toward mental disorders before and after a psychiatric rotation. Galka SW, Perkins DV, Butler N, Griffith DA, Schmetzer AD, Avirrappattu G, Lafuze JE. September-October 357–361

Medical students' attitudes toward psychiatry and mental disorders (commentary). Feldmann TB. September-October 354–356

Medical students' perceptions of child psychiatry: pre- and post-psychiatry clerkship. September-October 362–367

Teaching electroconvulsive therapy to medical students: effects of instructional method on knowledge and attitudes. Warnell R. November-December 433–436

Awards

The awarding experience (commentary). Herman JB. Spring 19–20

Boundaries

Protecting the residency training environment: a resident's perspective on the ethical boundaries in the faculty-resident relationship. Mohamed M, Punwani M, Clay M, Appelbaum P. September-October 368–373

Supervision and boundaries in a combined family practice and psychiatry residency training program: the National Capital Consortium experience. Lacy T. November-December 483–489

Child and Adolescent Psychiatry

The Child and Adolescent Psychiatry Match: problems and potential solutions. Ascherman LI, Lamps C. Spring 8–13

Medical students' perceptions of child psychiatry: pre- and post-psychiatry clerkship. September-October 362–367

A survey of addiction training in child and adolescent psychiatry residency programs. Waldbaum M, Galanter M, Dermatis H, Greenberg WM. July-August 274–278

Using the science fiction film *Invaders From Mars* in a child psychiatry seminar. Zerby SA. July-August 316–321

A viable match is essential for child and adolescent psychiatry residencies (commentary). Sargent J. Spring 6–7

Collaborative Treatment

Teaching collaboration between pharmacotherapist and psychotherapist (perspective). Ellison JM. May-June 195–202

College Student Education

Improving recruitment and funding in psychiatry by teaching college undergraduates. Braslow K. November-December 459–463

Communication

Communication skills and undergraduate psychiatry: a description of an innovative approach to prepare Australian medical students for their clinical psychiatry attach-

ment. Couper J, Hawthorne L, Hawthorne G, Tan E-S, Roberts A. July-August 297–300

Protecting the residency training environment: a resident's perspective on the ethical boundaries in the faculty-resident relationship. Mohamed M, Punwani M, Clay M, Appelbaum P. September-October 368–373

Compensation

A department of psychiatry faculty practice plan designed to reward educational and research productivity. Hales RE, Shahrokh NC, Servis M. July-August 244–248

Competency

Assessment of psychopharmacology on the American Board of Psychiatry and Neurology examinations (perspective). Juul D, Winstead DK, Sheiber SC. May-June 211–214

The relationship between psychiatry residency applicant evaluations and subsequent residency performance. Dawkins K, Ekstrom RD, Maltbie A, Golden RN. Spring 69–75

Residency programs and psychotherapy competencies: a survey of chief residents. Khurshid K. November-December 452–458

Residents' perception of effectiveness of twelve evaluation methods for measuring competency. Cogbill KK, O'Sullivan PS, Clardy J. Spring 76–81

The RRC mandate for residency programs to demonstrate psychodynamic psychotherapy competency among residents: a debate. Yager J, Mellman L, Rubin E, Tasman A. September-October 339–349

Culture

Internationalism and the future of academic psychiatry (commentary). Belkin GS, Fricchione GL. July-August 240–243

Using film as the basis of an American culture course for first-year psychiatry residents. Sierles FS. Spring 100–104

Curricula

Alternate methods of teaching psychopharmacology (perspective). Zisook S, Benjamin S, Balon R, Glick I, Louie A, Moutier C, Moyer T, Santos C, Servis M. May-June 141–154

The challenge of teaching psychopharmacology in the new millennium: role of curricula (perspective). Glick ID, Zisook S. May-June 134–140 (correction, July-August 324)

Guidelines, algorithms, and evidence-based psychopharmacology training for psychiatric residents (perspective). Osser DN, Patterson RD, Levitt JJ. May-June 180–186

Innovations in the teaching of behavioral sciences in the preclinical curriculum: the merits of hiding psychiatry cases. Mack K. November-December 471–473

Teaching medication compliance to psychiatric residents: placing an orphan topic into a training curriculum (perspective). Weiden PJ, Rao N. May-June 203–210

Teaching psychiatry to family practice residents: analysis of a novel curriculum. Huzij T. November-December 479–483

Teaching psychopharmacology: two trainees' perspectives (perspective). Georgiopoulos AM, Huffman JC. May-June 167–175

Teaching the prescriber's role: the psychology of psychopharmacology (perspective). Mintz DL. May-June 187–194

Defense Mechanisms

Learning to recognize ego defense mechanisms: results of a structured teaching experience for psychiatric residents. Beresford T. November-December 474–478

Director of Psychiatry Residency Training

Preparing for a successful psychiatry residency review committee site visit: a guide for new training directors. Bhatia SK, Bhatia SC. July-August 249–255

Economic Issues

The association of pharmaceutical company promotional spending with resident physician prescribing behavior (letter). Huang F. November-December 500–501

Considering fees in psychodynamic psychotherapy: opportunities for residents. Newman SS. Spring 21–28

Improving recruitment and funding in psychiatry by teaching college undergraduates. Braslow K. November-December 459–463

Electroconvulsive Therapy

Teaching electroconvulsive therapy to medical students: effects of instructional method on knowledge and attitudes. Warnell R. November-December 433–436

Emergency Psychiatry

Case-based independent study for medical students in emergency psychiatry. Hirshbein LD, Gay T. Spring 96–99

Psychodynamic understanding and the therapeutic alliance in the psychiatric emergency room (letter). Lee TW. Spring 105–106

Ethical Issues

Attitudes and behaviors of psychiatry residents toward pharmaceutical representatives before and after an educational intervention. Randall ML, Rosenbaum JR, Rohrbaugh RM, Rosenheck RA. Spring 33–39

Becoming a good doctor: perceived need for ethics train-

ing focused on practical and professional development topics. Roberts LW, Warner TD, Green Hammond KA, Geppert CMA, Heinrich T. July-August 301–309

Ethical and regulatory considerations in educational research (editorial). Roberts LW, Geppert CMA, Coverdale J, Louie A, Edenharder K. Spring 1–5

Professionalism and the ethics-related roles of academic psychiatrists (editorial). Roberts LW, Coverdale J, Louie A. November-December 413–415

Protecting the residency training environment: a resident's perspective on the ethical boundaries in the faculty-resident relationship. Mohamed M, Punwani M, Clay M, Appelbaum P. September-October 368–373

Psychiatric training program engagement with the pharmaceutical industry: an educational issue, not strictly an ethical one (perspective). Mohl PC. May-June 215–221

The role of the pharmaceutical industry in teaching psychopharmacology: a growing problem (perspective). Brodkey AC. May-June 222–229

A survey of the interactions between psychiatry residency programs and the pharmaceutical industry. Varley CK, Jibson MD, McCarthy M, Benjamin S. Spring 40–46

Faculty

A department of psychiatry faculty practice plan designed to reward educational and research productivity. Hales RE, Shahrokh NC, Servis M. July-August 244–248

A pilot study for integrating volunteers with core psychiatry faculty. Dunstone D. July-August 262–266

Protecting the residency training environment: a resident's perspective on the ethical boundaries in the faculty-resident relationship. Mohamed M, Punwani M, Clay M, Appelbaum P. September-October 368–373

Where are the women academic speakers at psychiatry grand rounds? (letter). Jain S. July-August 322

Who is teaching psychopharmacology? who should be teaching psychopharmacology? (perspective). Dubovsky SL. May-June 155–161

Family Practice

Characteristics of combined family practice–psychiatry residency programs. Rachal J. November-December 419–425

Combined family practice and psychiatry residency training: a ten year appraisal (commentary). Servis M. November-December 416–418

Supervision and boundaries in a combined family practice and psychiatry residency training program: the National Capital Consortium experience. Lacy T. November-December 483–489

Teaching psychiatry to family practice residents: analysis of a novel curriculum. Huzij T. November-December 479–482

Fees

Considering fees in psychodynamic psychotherapy: opportunities for residents. Newman SS. Spring 21–28

Films

Using film as the basis of an American culture course for first-year psychiatry residents. Sierles FS. Spring 100–104

Using the science fiction film *Invaders From Mars* in a child psychiatry seminar. Zerby SA. July-August 316–321

Geriatric Psychiatry

Intensive short-term research training for undergraduate, graduate, and medical students: early experience with a new national-level approach in geriatric mental health. Halpain MC, Jeste DV, Trinidad GI, Wetherell JL, Lebowitz BD. Spring 58–65

Globalization

Internationalism and the future of academic psychiatry (commentary). Belkin GS, Fricchione GL. July-August 240–243

Grand Rounds

Where are the women academic speakers at psychiatry grand rounds? (letter). Jain S. July-August 322

Homelessness

Residency training and homelessness education (letter). Christensen RC, Garces LK. May-June 230–231

International Psychiatry

Attitudes and views on psychiatry: a comparison between Spanish and U.S. medical students. Pailhez G, Bulbena A, Coll J, Ros S, Balon R. Spring 82–91

The attitudes of Israeli medical students toward residency in psychiatry. Abramowitz MZ, Bentov-Gofrit D. Spring 92–95

Communication skills and undergraduate psychiatry: a description of an innovative approach to prepare Australian medical students for their clinical psychiatry attachment. Couper J, Hawthorne L, Hawthorne G, Tan E-S, Roberts A. July-August 297–300

The educational needs of international medical graduates in psychiatric residencies (letter). Kramer MN. July-August 322–324

Internationalism and the future of academic psychiatry (commentary). Belkin GS, Fricchione GL. July-August 240–243

The OSCE has landed: one small step for British psychiatry? Sauer J, Hodges B, Santhouse A, Blackwood N. July-August 310–315

Media

The media and suicide. Sudak HS, Sudak DM. November-December 495–499

Using film as the basis of an American culture course for first-year psychiatry residents. Sierles FS. Spring 100–104

Using the science fiction film *Invaders From Mars* in a child psychiatry seminar. Zerby SA. July-August 316–321

Medical Student Training

Attitudes and views on psychiatry: a comparison between Spanish and U.S. medical students. Pailhez G, Bulbena A, Coll J, Ros S, Balon R. Spring 82–91

The attitudes of Israeli medical students toward residency in psychiatry. Abramowitz MZ, Bentov-Gofrit D. Spring 92–95

Becoming a good doctor: perceived need for ethics training focused on practical and professional development topics. Roberts LW, Warner TD, Green Hammond KA, Geppert CMA, Heinrich T. July-August 301–309

Case-based independent study for medical students in emergency psychiatry. Hirshbein LD, Gay T. Spring 96–99

Communication skills and undergraduate psychiatry: a description of an innovative approach to prepare Australian medical students for their clinical psychiatry attachment. Couper J, Hawthorne L, Hawthorne G, Tan E-S, Roberts A. July-August 297–300

Formative feedback in teaching undergraduate psychiatry. Chur-Hansen A, Koopowitz LF. Spring 66–68

Innovations in the teaching of behavioral sciences in the preclinical curriculum: the merits of hiding psychiatry cases. Mack K. November-December 471–473

Intensive short-term research training for undergraduate, graduate, and medical students: early experience with a new national-level approach in geriatric mental health. Halpain MC, Jeste DV, Trinidad GI, Wetherell JL, Lebowitz BD. Spring 58–65

Medical students' attitudes toward mental disorders before and after a psychiatric rotation. Galka SW, Perkins DV, Butler N, Griffith DA, Schmetzer AD, Avirrappattu G, Lafuze JE. September-October 357–361

Medical students' attitudes toward psychiatry and mental disorders (commentary). Feldmann TB. September-October 354–356

Medical students' perceptions of child psychiatry: pre- and post-psychiatry clerkship. September-October 362–367

A pilot study for integrating volunteers with core psychiatry faculty. Dunstone D. July-August 262–266

A pilot survey of patient-initiated assaults on medical students during clinical clerkship. Waddell AE, Katz MR, Lofchy J, Bradley J. September-October 350–353

Professionalism deficits among medical students. Bennett A. November-December 426–432

Protecting the safety of medical students and residents (editorial). Coverdale JH, Louie AK, Roberts LW. September-October 329–331

Relationship of rotation timing to pattern of clerkship performance in psychiatry. Park RS, Chibnall JT, Morrow A. July-August 267–273

The "shrinking" clerkship: characteristics and length of clerkships in psychiatry undergraduate education. Rosenthal RH, Levine RE, Carlson DL, Clegg KA, Crosby RD. Spring 47–51

Teaching electroconvulsive therapy to medical students: effects of instructional method on knowledge and attitudes. Warnell R. November-December 433–436

Usage of the National Board of Medical Examiners Subject Test in psychiatry by U.S. and Canadian clerkships. Levine RE, Carlson DL, Rosenthal RH, Clegg KA, Crosby RD. Spring 52–57

Mentoring

A day in the life of a psychiatrist in-the-making. Agboola I (Manley M, mentor); Arikan R (Applebaum P, mentor); Bromley E (Mellman L, mentor); Evans J (Wise TN, mentor); Goins-Simms C (Wright H, mentor); Jarvis RM (Clardy JA, mentor); Joson L (Santos C, mentor); Moreno A (Goldberg D, mentor); Sadler B (Atre Vaidya N, Sierles F, mentors); Sandifer HM (Dyer AR, mentor); Sorrentino R (Resnick P, mentor); Thomas ZS (Sondheimer A, mentor); Young K (Lyketsos C, mentor). September-October 382–403

National Board of Medical Examiners Subject Test in Psychiatry

The "shrinking" clerkship: characteristics and length of clerkships in psychiatry undergraduate education. Rosenthal RH, Levine RE, Carlson DL, Clegg KA, Crosby RD. Spring 47–51

Usage of the National Board of Medical Examiners Subject Test in psychiatry by U.S. and Canadian clerkships. Levine RE, Carlson DL, Rosenthal RH, Clegg KA, Crosby RD. Spring 52–57

National Residency Match Program

The Child and Adolescent Psychiatry Match: problems and potential solutions. Ascherman LI, Lamps C. Spring 8–13

A viable match is essential for child and adolescent psychiatry residencies (commentary). Sargent J. Spring 6–7

Nicotine Dependence

How prepared are psychiatry residents for treating nicotine dependence? Prochaska JJ, Fromont SC, Hall SM. July-August 256–261

Objective Structured Clinical Examination (OSCE)

The OSCE has landed: one small step for British psychiatry? Sauer J, Hodges B, Santhouse A, Blackwood N. July-August 310–315

Peer Review

Peer review for residents. Patel M. November-December 490–494

Pharmaceutical Industry

The association of pharmaceutical company promotional spending with resident physician prescribing behavior (letter). Huang F. November-December 500–501

Attitudes and behaviors of psychiatry residents toward pharmaceutical representatives before and after an educational intervention. Randall ML, Rosenbaum JR, Rohrbaugh RM, Rosenheck RA. Spring 33–39

Psychiatric training program engagement with the pharmaceutical industry: an educational issue, not strictly an ethical one (perspective). Mohl PC. May-June 215–221

The role of the pharmaceutical industry in teaching psychopharmacology: a growing problem (perspective). Brodkey AC. May-June 222–229

A survey of the interactions between psychiatry residency programs and the pharmaceutical industry. Varley CK, Jibson MD, McCarthy M, Benjamin S. Spring 40–46

Who is teaching psychopharmacology? who should be teaching psychopharmacology? (perspective). Dubovsky SL. May-June 155–161

Practice Guidelines

Guidelines, algorithms, and evidence-based psychopharmacology training for psychiatric residents (perspective). Osser DN, Patterson RD, Levitt JJ. May-June 180–186

The limited role of expert guidelines in teaching psychopharmacology (perspective). Salzman C. May-June 176–179

Primary Care

Characteristics of combined family practice–psychiatry residency programs. Rachal J. November-December 419–425

Combined family practice and psychiatry residency training: a ten year appraisal (commentary). Servis M. November-December 416–418

Psychiatry resident graduates' comfort with general medical issues: impact of an integrated psychiatry-primary medical care training track. Dobscha S. November-December 448–451

Supervision and boundaries in a combined family practice and psychiatry residency training program: the National Capital Consortium experience. Lacy T. November-December 483–489

Teaching psychiatry to family practice residents: analysis of a novel curriculum. Huzij T. November-December 479–482

Productivity

Administrative restructuring of a residency training program for improved efficiency and output: the portfolio manager model. van Zyl LT, Finch SJ, Davidson PR, Arboleda-Florez J. November-December 464–470

A department of psychiatry faculty practice plan designed to reward educational and research productivity. Hales RE, Shahrokh NC, Servis M. July-August 244–248

Professionalism

Becoming a good doctor: perceived need for ethics training focused on practical and professional development topics. Roberts LW, Warner TD, Green Hammond KA, Geppert CMA, Heinrich T. July-August 301–309

Early career professional development issues for military academic psychiatrists. Warner C. November-December 437–442

Professionalism and the ethics-related roles of academic psychiatrists (editorial). Roberts LW, Coverdale J, Louie A. November-December 413–415

Professionalism deficits among medical students. Bennett A. November-December 426–432

Psychiatric Subspecialties

Case-based independent study for medical students in emergency psychiatry. Hirshbein LD, Gay T. Spring 96–99

The Child and Adolescent Psychiatry Match: problems and potential solutions. Ascherman LI, Lamps C. Spring 8–13

Intensive short-term research training for undergraduate, graduate, and medical students: early experience with a new national-level approach in geriatric mental health. Halpain MC, Jeste DV, Trinidad GI, Wetherell JL, Lebowitz BD. Spring 58–65

Medical students' perceptions of child psychiatry: pre- and post-psychiatry clerkship. September-October 362–367

Psychodynamic understanding and the therapeutic alliance in the psychiatric emergency room (letter). Lee TW. Spring 105–106

A survey of addiction training in child and adolescent psychiatry residency programs. Waldbaum M, Galanter M, Dermatis H, Greenberg WM. July-August 274–278

Using the science fiction film *Invaders From Mars* in a child psychiatry seminar. Zerby SA. July-August 316–321

A viable match is essential for child and adolescent psychiatry residencies (commentary). Sargent J. Spring 6–7

Psychiatric Workforce

A day in the life of a psychiatrist in-the-making. Agboola I (Manley M, mentor); Arikan R (Applebaum P, mentor); Bromley E (Mellman L, mentor); Evans J (Wise TN, mentor); Goins-Simms C (Wright H, mentor); Jarvis RM (Clardy JA, mentor); Joson L (Santos C, mentor); Moreno A (Goldberg D, mentor); Sadler B (Atre Vaidya N, Sierles F, mentors); Sandifer HM (Dyer AR, mentor); Sorrentino R (Resnick P, mentor); Thomas ZS (Sondheimer A, mentor); Young K (Lyketsos C, mentor). September-October 382–403

A day in the life of an academic psychiatrist. Bailey B, Chan CH, Pato MT, Schuckit MA, Atre Vaidya N. September-October 375–381

Early career professional development issues for military academic psychiatrists. Warner C. November-December 437–442

Where are the women academic speakers at psychiatry grand rounds? (letter). Jain S. July-August 322

Psychopharmacology

Adequacy of antidepressant treatment by psychiatric residents: the Antidepressant Treatment History Form as a possible assessment tool. Dew RE, Kramer SI, McCall WV. July-August 283–288

Alternate methods of teaching psychopharmacology (perspective). Zisook S, Benjamin S, Balon R, Glick I, Louie A, Moutier C, Moyer T, Santos C, Servis M. May-June 141–154

Assessment of psychopharmacology on the American Board of Psychiatry and Neurology examinations (perspective). Juul D, Winstead DK, Sheiber SC. May-June 211–214

The association of pharmaceutical company promotional spending with resident physician prescribing behavior (letter). Huang F. November-December 500–501

The challenge of teaching psychopharmacology in the new millennium: role of curricula (perspective). Glick ID, Zisook S. May-June 134–140 (correction, July-August 324)

Comments on psychiatric education (commentary). Klein DF. May-June 128–133

Education and training in psychopharmacology (commentary). Blanco C, Luján JJ, Nunes EV. May-June 124–127

Guidelines, algorithms, and evidence-based psychopharmacology training for psychiatric residents (perspective). Osser DN, Patterson RD, Levitt JJ. May-June 180–186

Imparting the knowledge, science, and art of psychopharmacology: thoughts on educational research questions (editorial). Louie A, Roberts LW, Coverdale J. May-June 113–115

The limited role of expert guidelines in teaching psychopharmacology (perspective). Salzman C. May-June 176–179

Old versus new medications: how much should be taught? (perspective). Jefferson JW. May-June 162–166

Psychiatric training program engagement with the pharmaceutical industry: an educational issue, not strictly an ethical one (perspective). Mohl PC. May-June 215–221

Psychopharmacology training in psychiatric education: the debate (commentary). Jibson MD. May-June 120–123

The role of the pharmaceutical industry in teaching psychopharmacology: a growing problem (perspective). Brodkey AC. May-June 222–229

Teaching collaboration between pharmacotherapist and psychotherapist (perspective). Ellison JM. May-June 195–202

Teaching medication compliance to psychiatric residents: placing an orphan topic into a training curriculum (perspective). Weiden PJ, Rao N. May-June 203–210

Teaching psychopharmacology introduction (editorial). Balon R. May-June 116–119

Teaching psychopharmacology: two trainees' perspectives (perspective). Georgiopoulos AM, Huffman JC. May-June 167–175

Teaching the prescriber's role: the psychology of psychopharmacology (perspective). Mintz DL. May-June 187–194

Who is teaching psychopharmacology? who should be teaching psychopharmacology? (perspective). Dubovsky SL. May-June 155–161

Psychotherapy

Case formulation in psychotherapy: revitalizing its usefulness as a clinical tool. Sim K, Gwee KP, Bateman A. July-August 289–292

Considering fees in psychodynamic psychotherapy: opportunities for residents. Newman SS. Spring 21–28

How *not* to teach psychotherapy. Gabbard GO. September-October 332–338

Of rose gardens and forced terminations (perspective). Seritan AL. Spring 29–32

A pilot use of team-based learning in psychiatry resident psychodynamic psychotherapy education. Touchet BK, Coon KA. July-August 293–296

Residency programs and psychotherapy competencies: a survey of chief residents. Khurshid K. November-December 452–458

The RRC mandate for residency programs to demonstrate psychodynamic psychotherapy competency among residents: a debate. Yager J, Mellman L, Rubin E, Tasman A. September-October 339–349

Teaching collaboration between pharmacotherapist and psychotherapist (perspective). Ellison JM. May-June 195–202

Recruitment

Attitudes and views on psychiatry: a comparison between Spanish and U.S. medical students. Pailhez G, Bulbena A, Coll J, Ros S, Balon R. Spring 82–91

The attitudes of Israeli medical students toward residency in psychiatry. Abramowitz MZ, Bentov-Gofrit D. Spring 92–95

Improving recruitment and funding in psychiatry by teaching college undergraduates. Braslow K. November-December 459–463

Regulatory Issues

Ethical and regulatory considerations in educational research (editorial). Roberts LW, Geppert CMA, Coverdale J, Louie A, Edenharder K. Spring 1–5

New ACGME work-hour guidelines and their impact on current residency training practices. Sattar SP, Basith F, Madison J, Bhatia SC. July-August 279–282

Research

A department of psychiatry faculty practice plan designed to reward educational and research productivity. Hales RE, Shahrokh NC, Servis M. July-August 244–248

Ethical and regulatory considerations in educational research (editorial). Roberts LW, Geppert CMA, Coverdale J, Louie A, Edenharder K. Spring 1–5

Getting started in educational research. Coverdale J, Louie A, Roberts LW. Spring 14–18

Imparting the knowledge, science, and art of psychopharmacology: thoughts on educational research questions (editorial). Louie A, Roberts LW, Coverdale J. May-June 113–115
